Mrs. Maria B. Charles.

Mrs. Maria B. Charles died at the home of her daughter, Mrs. Jason Marr, Friday, Nov. 26, at the age of 57 years.

Mrs. Charles was the daughter of Simon Charles and Sarah Wiley. She was born in Fryeburg, April 24, 1822, and was educated in the schools of that town. Mrs. Charles was one of a family of 13 children, all of whom grew up and married, except one who died in infancy.

Mrs. Marcia Charles married David Charles and two children, Mrs. S. Jason Marr of Norway and Alphonso Charles of North Waterford survive her. Mr. Charles died at Lowell some years ago and since his death she has lived with her daughter, who has tenderly cared for her during her declining years. Five weeks ago she fell and broke her hip and since that time she failed rapidly.

The funeral services were held Sunday, Nov. 28, at the home of her daughter, at 10 Water street, conducted by Rev. M. C. Ward. The bearers were S. Jason Marr, Charles Morse, Bart Frost and Rufus Morrill. Interment was in Lowell.

Mrs. Emma Holt and son Herbert have moved from Northwest Norway into Charles A. Frost's new home. They have moved on to Mrs. Holt's farm.

The waitresses at Horne's Cafe on Cottage Street held a dance at the Cafe, Tuesday evening, Nov. 30. There was a good number present and a social dance enjoyed. Stearns' Orchestra furnished the music.

The World's Temperance Sunday was observed in the Congregational Methodist and interesting sermons were given by the several pastors and the singing was appropriate for the day's observance. There were also special temperance exercises in the Sabbath schools.

Mr. and Mrs. Eugene E. Andrews entertained the following guests, Thanksgiving day: Mrs. E. J. Andrews, Nellie Andrews, Mr. and Mrs. H. F. Andrews, Donald, Francis and Glenn Andrews, Mr. and Mrs. S. Dexter Andrews, Mr. and Mrs. J. F. Swain, Mrs. George M. Fride, Lillian Day.

Ben, Henry and Bert Hosmer, Frank Briggs, Fred Swan, Arthur Richardson and I. W. Waite returned, Saturday, after a very successful hunting trip, having their headquarters at Kelchom, Camp Brookton, and securing six deer. They had several interesting adventures while on short trips from camp. One day two of the number found a deep cave in the side of Goose Eye Mt. and lighting birch bark torches went 30 or 40 feet into the cave which in places was nearly high enough to admit of one standing upright.

On Thanksgiving day they tracked a lynx, but did not get sight of it. Then the snow and rain came forming a crust which made it difficult to hunt so they broke camp and returned home to share their trophies with their friends.

Mrs. Isa G. Whitman and daughter Geraldine returned to Norway after an absence of almost two years, last Tuesday. They are stopping with Mrs. Julia McLean on Paris street, a sister of Mrs. Whitman. Geraldine Whitman, after attending the Hebron Academy, wished to learn the business of photography and went to the Illinois College of Photography at Elmhurst, Ill., some twenty months ago. She graduated from that college and has since worked at St. Johns, Mich., Carroll, Iowa, and St. Joseph, Mo. They left the latter city last Saturday. Mrs. Whitman says that she liked living in St. Joseph very much but on account of the climatic conditions, she feels it better to return east.

Red Cross Christmas Stamp.

The American Red Cross organization which comes to the front in time of disaster, whether in war or calamity, is now trying to stave off the great white plague, tuberculosis—consumption. This is the way of it. 40,000,000 stamps have been made and more can be made at short notice, each to sell for one cent, and the money will be used to fight the stamps are sold.

The stamp is one inch square, printed in bright Christmas colors, red and green, a red cross in the center, green holly leaves and berries above, and a scroll below with the inscription "Merry Christmas" and "Happy New Year." These bright little messengers should be on every Christmas letter and bundle. For every stamp carries a message of good cheer from the sender to the person who receives the mail, and every stamp sold is a bullet in the Red Cross warfare against the white plague in this State. 80 per cent. of the money received for stamps sold in Norway will go to the Hebron Sanatorium and 20 per cent. to the general work.

The sales in Norway are in charge of the Barton Reading club, and the stamps are on sale at Stone's Drug Store, The Noyes Drug Store, Hobbs' Variety Store and the Post-office.

F. Q. Elliott has been sick the past week.

Lottie Daigle is to work as clerk at the F. A. Cole jewelry store during the holidays. She commenced last Monday.

Dr. A. H. Staples has been sick at his home in Brunswick. He went there for Thanksgiving and was unable to return to Norway until Tuesday.

Christie G. Hatch of Brighton is clerking at Thomas Smiley's during the holiday season. Miss Hatch has been at work in the dressmaking department at Brighton store.

Tax-Collector H. J. Bangs says that all taxes whether resident or non-resident must be paid by Monday, Dec. 6th. Those not being settled will be advertised and expenses made.

Dr. Frank H. Richardson spent Thanksgiving at his home in Brunswick. His mother leaves this week to spend the winter in California.

Winfield A. Kimball, U. of M., '09, has been appointed sub-master of the Milford, N. H., high school. Prof. Verne Whitman is principal. He will begin his duties, Dec. 6.

One hundred or more attended the rail call and banquet at the Congregational church, Thursday evening. It seemed like a large family gathering in which good will and friendship prevailed.

Thanksgiving Guests.

Iza Pike of Portland was home for the holiday.

Grace Calkins spent the day with Mrs. Helen Chert.

Lillian Marston was at F. F. Swan's Thanksgiving.

Frank Cox and wife took dinner at Elgin Greenleaf's.

Mrs. Ella Ham and son Ernest took dinner at Frank DeCosta's.

Mr. and Mrs. Oscar Cox and Alonzo Brickett were guests at W. F. Cox's.

Oren Holman, wife and daughter Dorothy spent Thanksgiving with her parents, Mr. and Mrs. Oren Brown.

Mr. and Mrs. Albert McCrellis spent Thanksgiving with their daughter, Mrs. Charles Colwell, at South Hancock.

Allie Buck and Oliver C. Buck of Wentworth Location spent the day with their parents, Mr. and Mrs. Walter Buck.

C. E. Bradford and Clarence Wilson have returned from a hunting trip at Shelburne, N. H., bringing home a nice 11-pound buck. They report it hard hunting but they enjoyed the trip all the same.

George I. Cummings recently returned from the city leading a dog by a string. It was a pup less than six months old of the yellow variety, wearing the name of Miss Hobo, later christened Hobo Jip.

The son, young Charles, was awfully well pleased with this addition to the family but Mrs. Cummings cast some frowns and scowls and made but little talk. The dog was soon shipped off to a lumber camp, where it will probably be educated and house broken.

Harriette E. Cragin has resigned as teacher in the third grade. Miss Cragin says she resigned because the school authorities were trying to compel her, in addition to the work for which she was hired, to teach music and drawing, which the town is now paying a special teacher \$14 per week. She was told "that it was about time to be passing in her resignation if she did not intend to do the work, for it takes a long time to get a good teacher."

Star Entertainment Course.

With the coming of Mrs. Charlotte Adams Dunne in the revival of "Fash," Dec. 9, one of the best courses of entertainment procurable anywhere will be begun at the Norway Opera House.

The other numbers are Jan. 20, Dr. Frederick M. Brooks, a traveler and author, in an illustrated lecture on "Alaska."

Feb. 15th, Prof. C. H. Wilton, a magician and entertainer of wide reputation for beautiful effects and clever surprises.

March 15th, T. E. Boston Carnival and Concert Co. This is given by three musical artists with the aid of the best electric and calcium light effects.

In April, one of New England's best male quartettes, either the Apollo or Commonwealth of Boston, will appear.

The course tickets, now on sale, admit to the whole five entertainments for the price of four single ones. Tickets are selling rapidly and had best be secured at once of the committee or at Stone's drug store. All seats reserved.

The same seats for the entire course can be secured on and after Monday, Dec. 6th, at Stone's drug store.

Thanksgiving Ball.

The one-fourth of a century, or the twenty-fifth annual ball given under the auspices of the members of Penobscot Lodge, No. 19, K. of P., at Norway Opera House was largely attended.

The gallery was well filled with interested spectators and there were twenty-five or more couples on the floor. The grand march was led by the floor manager, H. C. Everett, and lady.

The music was by Stearns. The floor manager and aids saw that their guests were "at home" and the sixteen dances and extras gave plenty of dancing to good music and with a good company. Ice cream and cake were served.

The Fair and rummage sale held by the ladies of the Methodist church will be at the G. A. B. hall next Thursday afternoon and evening.

F. D. Thurston recently lost a good horse. Cause of death, colic and pink eye. It will cost several hundred dollars to replace the horse.

We were handed a circular relative to a festival chorus being formed here which will take part in the grand chorus of the Olney Grand Musical Convention in Portland next season. It is hoped that a large class will be formed here and that Norway will be well represented. Carrie Tucker called our attention to this.

Col. F. K. Taylor has been building an ice proof boat house, as he has had J. H. Wiles put in a foundation which he thinks will stand. Mr. Wiles cut into the bank 23x2 feet, average depth about six feet, and made a heavy cement wall with rocks. He used sixty-three bags of cement and was assisted in doing this work by Elden Stevens, Lewis Buswell and Charles Morrill.

Concert Hall looked very pretty when the Christmas Sale opened Wednesday afternoon at two o'clock. The quantities of evergreen and the red and white flowers had been effectively arranged by Fred Cummings and formed a fine setting for the booths and articles for sale, and the bright and interested faces of the sales-ladies.

Seldom has the large room looked prettier than it does with its present decorations. The booths are arranged around the walls of the room, with a large circular booth in the center. Everywhere were hundreds of pine branches and crimson berries, the sweet scent of the pine giving the room an attractive odor. The pine and branches of berries were intertwined to make a brilliant lattice-work for the fronts of the booths, making a handy wall for the suspension of fancy articles.

Crowds visited the sale both afternoon and evening and the goods had a ready sale. This is an easy and good way for many to get their Christmas gifts and saves women who put off making Christmas presents the hurry and worry of crowding a good deal of holiday work into a short space of time.

Thursday the sale again opened at two o'clock in the afternoon and continued all the evening. At 6.30 o'clock a chicken pie supper. At 8 o'clock, "The Old Country Store" by the best of local talent.

FRYEBURG.

A Swedish Party.

A very interesting Swedish party, or Kalas, was given at Fryeburg in the early part of November, by Mrs. John Buzzell to the teachers of the Fryeburg Academy and a few of her friends at her residence in the Fryeburg Academy dormitory on Main street.

The guests arrived about six o'clock and were received by Mrs. Buzzell dressed in her native costume.

After being initiated in the proper way to make a Swedish courtesy to the hostess and a few necessary table manners suitable for the occasion, they were ushered into the sitting-room where a small table was spread with a coffee service and cakes.

Mrs. Merrill was the leader or honored guest of the evening, and bowing to the hostess helped herself to coffee, sharpeners, kringle and kletters. She bowed to the next honored guest and so on till everybody had served themselves.

After the coffee was finished the dishes were cleared away and games were played. A fox was formed on the table and everyone was blindfolded in turn and attempted to trace the fox with his forefinger, naming at the same time about the part he touched. This game is called "Lay the Fox" or in Swedish language "Lunga Raven." Another game played was "Udda O Maka" or "Odd and Even," and was simply guessing how many nuts some one else held in his hand.

These games finished the table was set again, this time with shrub and fancy cakes out in various shapes such as half moons, etc., and frosted in little designs. These cakes are called soft "O Fina Cakor."

Everyone helped themselves as before and after this course Mrs. Buzzell had a social talk telling many stories of her native land and describing a party given to her in Sweden the year before, when fifty guests were entertained from eight in the evening till half past six in the morning, most of the time being daylight as the time was summer and place the land of the midnight sun.

At half-past eight the company was ushered into the dining-room to the real supper or "suppe." The table was ornate with Swedish grasses and a Swedish flag. The food was enclosed on one half of the table, in a V shaped decoration made from napkins and united together to form a perfect letter and the knives and forks peaked out artistically.

The table cloth itself was woven in Sweden by Mrs. Buzzell's mother. Around the point of the V were napkins to be used at supper and dishes for the different courses. The former were rolled and folded across each other in pairs.

In the menu were plain and smoked sardines, pickled herring and herring cooked in custard, out meat loaf and meat balls, korf and cheese and bread and butter. The bread was the genuine round Swedish dry bread about a foot in diameter. This is said to last for three years and retain its original flavor.

The last course was a pudding made from apple sauce and decorated on the top with Swedish cranberry sauce. These cranberries are about the size of our mountain cranberries, but are much spicier and sweeter in flavor. They are brought from Sweden in water. With this pudding was served a Washington pie.

Everyone was supposed to bring an extra handkerchief to take home their "kynte" or sample of food in, this being a Swedish custom. At about ten the company left well laden and expressing themselves pleased with the agreeable and highly original entertainment.

The guests were: Mr. and Mrs. Alvin Merrill, Mrs. C. G. Newman, Mrs. Geo. Page, Clara Page, Ruth Cummings, Annie Spring, Mrs. Harmon, Mrs. Luna Buzzell, Ridgely, Edw. Clark, Edw. Page, Arthur Pendexter and John Buzzell.

Mr. Stone spoke words of comfort to relatives and friends. Mr. Towle was about 40 years of age. He leaves a widow, son and daughter besides parents, a brother and six sisters.

The supper and entertainment at the Congregational chapel was well attended. The entertainment consisted of violin solo by Elsie Abbott, vocal solos by Charles Hutchins and Arline Hutchins and readings by Raymond Farrington, Cathleen Brackett and Miss Wilson, who read a story entitled "Tape." The last number was an amusing farce called "Taking the Census."

As James Hobbs was loading some freight at the station his horses took fright at a freight train which was rapidly passing near them. Bore Mr. Hobbs could get on the team they dashed against the moving train, breaking the pole in front of them and running against the station platform which halted them somewhat. They cleared themselves from the car, but were plucked stopped by Percy Smith who was also at the station for freight. The horses were not injured.

A Rest for the Lady.

"Here is the way papers will write up weddings ten years to come," says an exchange. "The bride looked very well in a traveling dress, but all eyes were centered upon the groom. He wore a dark suit that fitted his form perfectly, and in his dainty gloved hands he carried a small rose. His curly hair was beautifully done and a delicate odor of the best quality floated down the aisle as he passed. The young people will miss him now that he is married. He is loved by all for his many accomplishments, his tender grace and his winning ways. The bride commands a good salary as book keeper and the groom will miss none of the luxuries to which he has been accustomed. A crowd of pretty men saw him off at the depot."

Won't the brides be glad? Just such bosh as this has been written about them for time beyond memory. "What is sauce for the goose is sauce for the gander."

Nervous Dyspepsia.

If You Have It Read this Letter. Frank Kimball guarantees Mi-o-na.

"I was taken last August with a severe stomach trouble. The doctor said it was nervous dyspepsia. He gave me medicine for that. I took his treatment four weeks, didn't feel any better at the end of four weeks than I did when I commenced taking his medicine. I took everything I heard of. The first day of December, 1908, I got a box of Mi-o-na tablets. I took them that afternoon and the next day, and haven't had one bit of pain in my stomach since the 2d of December. I took five boxes. Feel well now, sleep good—that is something I haven't done in a number of years."

FRESHENING UP GARMENTS.

How Old Dresses Can Be Made to Look Like New.

To a girl whose frocks are few spring is not that season of untrammelled joy of which poets sing, for, alas, the time of putting on thin dresses has not yet arrived, and those she has worn through the winter show they are not new, and for the average young woman it is not easy to be contented with old clothes. Where new ones are out of the question much may be done for little cost to freshen old garments if a girl will give time to the remodeling.

Dressing, sponging and putting on new finishings will really do wonders for an old suit, for example. Just as the best cloth dress in the world would not look well were it not pressed, so steaming and ironing will spruce up the old. Try it on one and see.

Take an old skirt, begin to rip at the waistband and unpick enough to allow it to lie perfectly flat. Then arrange an ironer's dress board on two chair backs, get a basin of hot water and a little liquid ammonia set in the seat of the chair where it will be handy. Next get a piece of cloth—any sort will do—such as tweed or covert cloth, cut it about half a yard square or less and have three or four very hot irons at the fire. These are the most important, as they must just be under scorching point, and a stiff clothes brush will be needed.

Having collected all the requisites and spread the dress over the board, dip the piece of cloth in the water and wring it out as dry as possible, then spread it like a patch over the dress, smooth it down and iron quickly with the hottest iron. As soon as the iron has passed over the whole surface of the patch tear it quickly off, and while the cloth below is steaming brush up the nap with the clothes brush and leave it while you proceed to do the next square of the skirt, repeating the same process until the entire garment has been ironed that way.

How to Carve Successfully.

When carving use a chair slightly higher than the ordinary size, as this will give one better purchase on the meat. This also appears more graceful than standing, as is sometimes necessary when carving a turkey or a large joint. It requires more skill than strength to carve successfully. Commence by cutting the meat thin slices and laying them carefully on one side of the platter and afterward laying the desired amount on each guest's plate. In carving fish, game or joints the carver should acquaint himself with the choicest pieces and should serve each guest an equal share of these, giving preference to none. Be careful when carving fish to keep it in perfect flakes, for if these are broken the beauty of the fish is lost. A steel carving knife should never come in contact with intense heat, for this destroys its temper, and it should never be used in the kitchen or for any use except carving meat.

How to Prepare For Danger From Fires.

If a fire breaks out near your home do not get into a panic, but prepare for emergencies. Remove draperies from the windows and roll up shades tight so that there is less inflammable material about. Close all windows to prevent drafts, and on the side of the fire shut the shutters unless you wish the smoke to crack with the heat. Collect your most valuable belongings and pack them so that they may be removed at a minute's notice. If you have heavy old pieces of family furniture or pictures on the second floor have them brought to the lower floor. If fire once breaks out it will be impossible to bring them downstairs. Pack your dresses and other clothes in clothes baskets or hampers; they are less unwieldy than trunks. Keep jewelry and money tied around your neck. In the excitement they may be stolen from hand bags.

How to Save Stockings While Dancing.

Many a girl will not be half so apt to dance holes in their delicate silk stockings if only they will have slippers powdered inside. This simple operation permits the silk and shoe to rub together with decidedly less friction and the wear is thus not so great. A girl who dances much and who wears exquisitely embroidered stockings with all her party frocks and who feels a distinct grievance when holes appear has hit upon a plan that works well with her for preserving the hosiery intact. She glues a small piece of velvet inside the back of the heel on each shoe.

Sewing Tips.

Hemming on lightweight wool goods should be done by hand and with a short needleful of split silk. This does away with the tight twisting of the fine single silk and in consequence makes a prettier hem. Another good plan is to use the ravelings of the material, as this is a perfect match and, having the same sheen as the material, does not show if a chance stitch goes through.

In stitching a pocket on the outside of a garment run the stitching half an inch above the edge of the pocket. This prevents the body of the garment from tearing, as is so often the case when the pocket is put on in the old way. When stitching around a cuff or wristband on the machine always turn the sleeve wring side out, then set the presser foot inside the wristband.

A nice little embroidery bag is made of cretonne covered with two embroidered loops and finished at the ends with cardboard covered with cretonne, just the size of the hoops. In other words, the bag is built like a barrel, with an opening at the side. This opening is held together by lacing with ribbon or by two buttons. The bag is carried by ribbon loops, which are fastened at each end to the embroidery hoops. It is pretty, and the sewing materials do not get lost when this protected.

A Referee Hearing.

A hearing was held at the court house Friday, before Judge A. R. Savage as referee, in suits between M. D. Sturtevant of Magalloway Plantation and E. L. Brown of Sumner. Both are lumbermen, and Mr. Sturtevant has a store at Magalloway.

In the fall of 1901, Mr. Brown, who had bought some standing timber in Dartmouth College Grant in New Hampshire, made a verbal contract with Mr. Sturtevant to get off several or eight hundred thousand feet on the Swift Diamond River each of the next two winters. The first winter Mr. Sturtevant got off a little over a million, but did not operate the second winter, as he says he was notified by the agent of the owners of the township that they were not going to allow any more cutting.

Mr. Sturtevant brings suit against Mr. Brown for supplies furnished from his store to several crews operating for Mr. Brown in the winter of 1901-2 and the two following winters, amounting to several hundred dollars.

Mr. Brown brings suit against Mr. Sturtevant for damages for failing to carry out the lumbering contract, asserting that he cut the easiest part of the timber to get at and left the hardest. He also claims six hundred dollars, which Mr. Sturtevant was owing another firm of operators who are owing Mr. Brown. Mr. Sturtevant had verbally agreed to pay the amount directly to Mr. Brown if it could be arranged, but he did not, suit had been brought by other parties against the firm and Mr. Sturtevant had been trusted, and later he paid the six hundred dollars to the other parties.

All the matters were referred to Judge Savage, whose report will be made at the next term of court. Hon. James S. Wright is counsel for Sturtevant, and Hon. W. H. Newell of Lewiston for Brown.

BETHEL.

Farm Buildings Burnt.

The farm buildings of Thomas Poole, about two miles out of Bethel on the Greenwood road, were totally destroyed by fire, about 4 o'clock Tuesday morning.

The fire started in the barn, from a lantern, and while Mr. Poole was trying to save what he could of his stock his wife in the house tried to telephone for help but failed to reach anyone. She then aroused the six children and had barely time to get them out of the house before the building was all in flames. But very little of anything in the house was saved and the mother and children saved only a few articles of clothing.

Mr. Poole saved a pair of work horses, but lost two heifers, all farming implements, all his supplies for the winter, practically everything but his family and the two horses not saving even the harness. There was about \$500 insurance.

The blow is a hard one for Mr. Poole and his family. Neighbors and friends are doing what they can to assist them in their misfortune.

J. S. Burbank has not returned from his hunting trip.

Richard Gates and wife of Paris, came up on the morning train, attended church and returned in the afternoon.

A Christmas tree and concert are being talked up for the Universalist Sunday School, which is steadily growing. Mrs. Burbank, formerly of South Paris, has a class of boys, and Mrs. Little serves as sponsor, filling in when a teacher is absent. The juvenile class has life enough for three or four classes.

Last week gave us a mixture of weather; winter, spring, summer, and winter again. Wednesday, we had a good old fashioned snow storm for several hours, the white flakes continuing into the evening of night, then turning to rain, and keeping at it till daylight, Thursday. A little hail early in the morning, then rain in showers and fog through the day; Friday was quite mild and Saturday was like a summer's day for several hours. About six inches of snow fell, and the sleighs came out Thursday afternoon in spite of fog and rain, and light sleighs have been in use up to Monday morning. A few are still in use, gliding and grinding along on the side of the road, where one and sometimes both runners are on the snow.

Sunday afternoon a party here drove out seven miles with a sleigh and found good, bad and poor sleighing. On the return they came over Grover Hill and found good sleighing most of the way.

Thanksgiving day, with rain falling and plenty of wet snow under foot, was very unfavorable for walking and the Union Thanksgiving service at the Universalist church, had a rather small audience present, only 63. The order of service was as follows:

Organ Voluntary.
Choir, under the leadership of Mrs. Wiley, with the singers from the three churches.
Scripture Reading—Mrs. Springer.
Prayers—Mrs. Adams.
Response—Rev. Mr. Little.
Sermon—Rev. Mr. Little.

One Dose for Coughs

Children cough at night? Give them Ayer's Cherry Pectoral. Often a single dose at bedtime will completely control the cough. Good for any one with a cold or cough. Good for easy cases, hard cases; good for acute cases, chronic cases. Ask your doctor to tell you, honestly and frankly, just what he thinks of this old standard remedy. No alcohol in this cough medicine. J. C. Ayer & Co., Lowell, Mass.

A lazy liver makes a lazy boy. An active brain demands an active liver. No better laxative for boys and girls than Ayer's Pills. Ask your doctor about them. He knows.

NORWAY, - ME.

DON'T KNOCK TILL YOU'RE SURE.

Perhaps you got swindled, but maybe you didn't, on that five dollar setting of fancy eggs, simply because the finest, fresh, fertile eggs may be made to hatch nothing or the worst of culs because the eggs aren't set right or the chicks aren't fed right or housed right.

Eggs are porous. What chance have they in a dirty nest or a filthy, foul smelling coop? Fine eggs can't hatch fine chicks in a poor incubator, nor can a hen whose vitality has been lowered by starvation, sickness or lice keep the heat up to that degree to hatch good livable chicks.

Chicks from high scoring ancestry may be changed into scrawny culs by bad feeding. Peeps from the whitest birds may grow to look like two legged brass kettles simply by giving them no shade and feeding yellow corn. Lice or a crowded, damp, dirty or badly ventilated coop will do any hatch. David called all men liars, But it wasn't true. He was really just excited Through and through. When you're hot beneath the collar And feel like knocking, too, Just don't throw those heavy bricks 'Till you're sure it isn't you.

HOW TO FEED CHICKS.

When mother brought the "peeps" in her apron from the barn your first thought was to get bread crumbs to feed them. Wasn't it jolly to see the little fellows eat? But that was one of the few mistakes mother made, for chicks should not be fed for a day after hatching, so they may have time to digest the yolk which they absorb before leaving the shell.

Feeding so soon brings the deadly white diarrhea. Feed mother hen alone, but turn her babies out on a clean place free from indigestibles, for with them, like other babies, "everything goes to mouth."

Fresh water and air for their first day's fare. Then for two days scatter a little chick grit and sweet, dry, fine bread crumbs.

Feed little, but often, just enough that their crops are half full in the

WHITE PLYMOUTH ROCK AND CHICKS.

day and two-thirds at night and never allow feed to lie around.

After two days feed finely sieved ground mixed grain such as wheat, corn and millet and add a little meat scrap or raw meat.

Do not feed meat if using hard boiled eggs, but do not feed the latter till chicks are a week old, and then sparingly.

Wet cornmeal, bran, cooked and baked preparations are not good or necessary, but sound cracked grain for chicks and whole as they grow older fill the bill.

Chicks on range often need no meat or greens, as grass, worms and bugs take their place. Lettuce and tender green clover furnish the fine green food which their system requires.

DON'TS.

Don't be afraid to give good measure. You hold your trade, give pleasure, gain treasure.

Don't expect to buy thoroughbred breeders for a song. Such an idea is altogether wrong.

Don't waste your money on bargain counter eggs. Such trash will hatch a smash.

Don't let cheap John sell you an incubator. He's the advance agent of the undertaker.

Don't spend your time monkeying with the regulator. Follow the rules of the incubator.

Don't throw up the sponge and quit for a few discouragements. Fight on. The solar plexus is often delivered in the last round.

Don't forget to have the brooder dry and clean, free from leaks and filth and crawlers mean.

School Improvement League.

The Welchville branch of the School Improvement League held an entertainment in the schoolhouse at Welchville, Saturday evening. The objects of the league are to improve the physical conditions of the school. To help provide libraries, pictures and needed equipment. To assist the pupils, teachers and citizens, is a movement for the improvement of educational facilities, thereby cultivating a sense of responsibility for school conditions, and to make the school a central point of interest in the community. It is earnestly requested that each parent and friend of the school become a member of the league in their district.

It is also suggested that each local league adopt the name of some person prominent in the literature of the locality, state or nation, and that the school committee be requested to give the name likewise to the school. There is no cost to any parent or friend of the scholars to become a member of the league, but it is taken for granted that members will do whatever they can to improve the school conditions.

The schoolroom at Welchville was well filled when at eight o'clock Theodore Brett opened the show, and from then until the close of the entertainment, the audience were treated to a lot of good things from the little folks. One little chap had such a bad cold that it was impossible for him to talk, and after making several vain efforts, said, "The best I can do is to say good night." The teacher and pupils worked hard to make the entertainment a success, and were ably assisted by both parents and friends, and the good work was appreciated and applauded by the audience.

At the close of the entertainment Joseph W. Hunting sold at auction, a homogenous collection of pies of all sizes and colors, but they looked good even to the dyspeptic. Mr. Hunting did a land office business, and the league made the handsome sum of \$26.50. The following is the program:

- Recitation, The Little Treasure. Theodore Brett
- Dialogue, The Three Holidays. Agnes Wesdot
- Tableau, The Flower Girls. Agnes Wesdot
- Recitation, The Nervous Girl. Hattie Holmes
- Recitation, Widow Bedot to Elden Sniffles. Clifford Tyler
- Song. Clifford Tyler
- Recitation, He Would a Farmer Be. Clifford Tyler
- Recitation, Aunt Jemima's Courtship. Bessie Holmes
- Tableau, Women's Rights. Donald Holmes
- Recitation, Extinguish. Milton Martin
- Recitation, Grandma's Aversion to Slugs. Edith Davis
- Recitation, The Witch for Miriam Brown. Lawrence Brett

Although the weather man served up some uncomfortable weather on Thanksgiving evening yet the ball in Robinson Hall was well patronized. Music was furnished by the Oxford cornet band, 18 pieces, and supper was served in S. of T. hall.

On Saturday, Dec. 4, Oxford Grange will hold their annual election of officers and it is the earnest request of the worthy Master that we have a full attendance. On Saturday evening, Dec. 18th, there will be work in the third and fourth degrees, followed by an oyster supper.

Saturday, Nov. 27th, Frank Bailey and Thomas Lanigan were quite severely injured by the upsetting of a team. Both men were bruised and battered. Lanigan's scalp was laid open to the extent of four inches, and he also received a severe cut over the eye. Both parties are improving.

SOUTH HARRISON.
A Sudden Death.
Our entire community was startled and saddened Nov. 16, by the sudden death of Susie E., wife of Geo. W. DeWitt, her home in South Harrison. She was born Oct. 24, 1879, and was the eldest daughter of Josiah and Martha (Wentworth) Strout. This death is especially sad as she leaves six little children, the oldest being 11 years old. Besides the family of little ones she leaves a kind husband, father, mother and one sister, Mrs. Warren L. Flagg, to mourn their loss.
She was a person of amiable and womanly disposition and made friends with all who met her. Her death was one of the saddest afflictions to kind-folks and a large circle of friends ever known in this region. A good woman, who was universally loved and respected, has passed away.
Funeral services were held at the parental home of the deceased, Nov. 18th, conducted by Rev. Mr. Nye of Naples. Interment was at Edes Falls.

Madam!
Here's a Coffee That Will Satisfy the Whole Family
You can buy "Fifth Avenue" Coffee with the perfect assurance that it will satisfy every member of your household. Think what that means!
No more complaining over the coffee you make. No more worrying whether the coffee will be good or not. No more puzzling over "What next?" in the way of coffee to buy.
For everyone likes "Fifth Avenue" Coffee. You will be delighted with its rich, creamy, appetizing color. You will be surprised at its superb fragrance and delicious flavor. So will your people.
No one ever wants other coffees after once enjoying the invigorating goodness of "Fifth Avenue."

Fifth Avenue Coffee
New York's Famous Coffee
We spent years to obtain the blend that you get in "Fifth Avenue" Coffee. Years of tests and experiments to meet the taste of New York's most discriminating coffee drinkers. We named this superb coffee "Fifth Avenue" because Fifth Avenue is New York's finest home section.
Thus by making a coffee that would satisfy the critical taste, we satisfied everyone's taste. And today "Fifth Avenue" Coffee is the favorite home beverage.
Roasted Over Live Coals
"Fifth Avenue" Coffee is roasted in closed cylinders over live coals. Other coffees are roasted in perforated cylinders over gas flames.
We roast our coffee for thirty-five minutes.
Coffee to be good cannot be roasted in less time. Then the berries are a rich golden brown—ready to give their exquisite flavor and fragrance for your enjoyment.
Beware of Gas Roasted Coffee
Gas roasted coffee smells of gas, tastes of gas. For the coffee comes in direct contact with the gas flames. The noxious gas fumes penetrate the coffee berries.
That is the reason why most coffees disagree with people.
Moreover, gas roasted coffee is roasted only outside. Inside it is raw. And you cannot get the real coffee flavor and strength from half-cooked coffee.
Thus the vast economy of "Fifth Avenue" Coffee which is roasted through and through.
Avoid Bulk Coffee
"Fifth Avenue" Coffee is packed in air-tight tins. You can always depend on its full strength and cleanliness. Coffee sold loose is unhealthy. Because coffee beans have pores which roasting tends to open. And these pores absorb foreign odors. Thus impairing the fine coffee flavor and fragrance.
For your own protection and satisfaction insist upon "Fifth Avenue" Coffee. You'll realize its superiority in the first cup.

Silver Wedding.
The twenty-fifth wedding anniversary of Mr. and Mrs. John F. Davenport was observed on Tuesday evening by a party of relatives and friends to the number of forty-two.

Nov. 24 was their wedding day but on account of Thanksgiving it was thought wise to meet the previous evening. Although the event was an entire surprise the friends were most cordially welcomed by both host and hostess, and a very happy evening was passed enlivened by games, graphophone selections, and greeting of old friends.

The happy couple were the recipients of a number of pretty and useful articles, including silver, glassware and money.

The following poem was written and read by Martha Sanchez:

Silver Wedding.
Twenty-five years in life they'd journeyed
Together all the way;
And at this time to celebrate
Their silver wedding day.

The time may seem, if measured,
But a long, long time ago;
Since she became his sweetheart bright,
And he his many love.

Since that day they were united,
Here to his home and heart,
And there a light some in his life,
They were no more to part.

And the time may seem short,
When they in mind review
The things that happened in the past
Of these beloved two.

To closer kind times there came
Into their home in time,
Two children of helplessness and care;
Round them their love and time.

The first that came into their lives,
It was a sturdy boy,
Tossing around their home,
He was their pride and joy.

But now he's reached a man's estate,
And with them does not stay;
Although he's here to celebrate
This happy wedding day.

And though away from home those days,
And may travel far and wide,
And always be their parents dear
To lighten his burden have tried.

Next came into their home
A little girl, so sweet and true,
Who has always filled their life and home
With joyfulness and laughter.

Amidst the joy and love a long year,
Never from their home to roam,
To share their lives, their sorrows and cares,
And always be their children at home.

For she's always ready to help with the work
Of either her father or mother,
And with her bright smile she carries all day
Makes her neighbors and friends all love her.

And so these relations and friends,
Have gathered in this pleasant way,
And hope that they will live to enjoy
Refreshments of cake and coffee con-

cluded the evening's entertainment, and at a late hour the friends departed wishing Mr. and Mrs. Davenport many more such pleasant anniversaries.
